The University of Alabama
Center and Institute Annual Reports

To ensure the impact of The University of Alabama’s formal centers and institutes is fully understood and to comply with Board of Trustees Rule 503 that requires periodic reviews for centers and institutes, the following policy outlines the process for the annual review of research and service centers/institutes.

All formal centers and institutes will submit annual reports to their Dean(s) by July 1st of each year. The center/institute directors will meet annually with the Dean(s) to review their mission, to discuss the previous year’s activities, and to identify goals for the coming year. The Dean(s) will forward a copy of the annual report along with their recommendation on continuation/termination of the center to the Provost and Vice President for Research.

To ensure completeness and consistency in reporting, the annual reports should follow the outlines provided below for research and service centers/institutes. The report should address each of the elements included in the outline that are relevant to the specific center/institute and may also include other elements unique to the individual center/institute.

The Provost and Vice President for Research will review the annual reports and the recommendations of the Dean(s) and make the final decision on continuation of the center/institute.
