Maintenance, Custodial, and Grounds Workers maintain exemplary planned maintenance work.
Facilities budget is leaner than peers with a greater dedication to project and cost avoidance savings.
Energy consumption is significantly below peers and yields millions of dollars in savings.

Operations Success

Increasing facilities quality and campus value while reducing the backlog of deferred maintenance need and targeting funds to reach the target need of $427M in 2022.
Deferred maintenance funding is less than peers historically and does not reach.

Asset Value Change

Age of about half that of peers institutions.
New construction and full building renovation have resulted in an overall campus buildings are larger and more crowded than at peer campuses.
Massive change in campus size, both physical square footage and number of campus users.
