The University of Alabama

Academics

Students at The University of Alabama can go anywhere in the nation. They choose to come here.

The University of Alabama has consistently been ranked among the nation's top 50 public universities by U.S. News & World Report for the last several years. With seven USA Today Academic All-Americans this year, our six-year total of 31 tops all other colleges and universities.

We offer bachelor's, master's and doctoral degrees in more than 200 fields of study, with a student/faculty ratio that averages 19:1. To appeal to your special interests and enhance your educational experience, we also offer a variety of special programs and activities ranging from freshmen learning communities, to Honors College, to international seminars, to programs for students with disabilities. Professional programs include law and rural medicine.

We are proud of the overall excellence of our academic programs and the national recognition many of them have received.
