Transfer Course Equivalency Tables

This system is used to determine how courses completed at other institutions are equated as transfer credit at The University of Alabama. This information is taken from the database maintained by the Office of University Registrar and is the same information used to award credit to transfer students. If you do not see the course you are seeking to equate, it is because that course has not been evaluated yet. When you apply for admission and submit your final official college transcripts for evaluation, we will evaluate all of your courses and present them to you in an online report.
