4.11.2 EDUCATIONAL SPECIALIST DEGREES

The educational specialist degree (EdS) is offered in some departments of the College of Education that offer doctoral degrees. Students interested in the EdS degree should contact the department involved regarding availability of the degree.

The EdS degree normally is granted at the end of the sixth year of collegiate study and falls in time between the master's degree and the doctorate, although it is not viewed as intermediate between the master's and doctoral degrees. In the College of Education, some EdS degrees lead to a teaching certification for P–12 education fields. In some teaching fields, the purpose of the degree is to prepare undergraduate-college teachers, especially those who will be employed in junior colleges, small private and state colleges, and the group of colleges labeled as "developing" institutions. The primary goals of the EdS degree are teaching and acquiring professional proficiency.

Because the purposes of the EdS degree may differ from those of either the EdD or PhD, credit earned in an EdS program is not automatically transferable to a doctoral program. Instead, if a holder of an EdS degree enters a doctoral program at a later date, the doctoral advisory committee will decide how much of the credit earned in the EdS program will be counted toward the doctorate.

Program Requirements

The EdS degree requires a minimum of 30 semester hours of study beyond the master's degree. (Students completing an EdS program and also expecting to receive an Alabama Class AA certificate for service in the public schools must complete a minimum of 30 semester hours and achieve a minimum 3.25 grade point average on all work attempted.) Generally, the following requirements will hold for the degree:

- If a student enters a program with a master's degree in the same field, a minimum of 12 additional semester hours in the teaching field must be taken as part of the 30-hour total. Some departments may require more than these minimums.
- Since one of the goals of the EdS degree is to prepare undergraduate-college teachers, certain courses in higher education may be necessary, if required by the major department. A faculty advisor in the program in higher education administration will advise students on the appropriate courses to complete this requirement.
- Candidates for the EdS degree will be required to complete all coursework at the 500 and 600 levels.
Residency Requirement

A student's program at the EdS level must provide sufficient association with the resident faculty to permit individual evaluation of the student's capabilities and achievements.

Graduate Credit

A student must be admitted to the Graduate School and must register as a graduate student in order to receive graduate credit. Approval for graduate registration must be obtained from program advisors prior to registration.

Graduate Credit for Noncredit Experiences

All course credit used toward a UA graduate degree must be taught at the graduate level. No graduate credit may be earned by correspondence study or for experiential learning not conducted under the direct supervision of graduate faculty of The University of Alabama. The UA does not offer graduate credit for noncredit workshops, seminars, continuing education experiences, professional development, internships, work/life experience, and so forth.

Transfer of Credit

Courses of full graduate-level credit earned in a regionally accredited institution where a student was enrolled in the graduate school may be submitted for review for inclusion in a degree program. Evaluation of credit for transfer will not be made until after the student has enrolled in the Graduate School of The University of Alabama. Acceptance of credit requires the approval of the student's advisory committee and the dean of the Graduate School. Credit will not be accepted for transfer from any institution at which the student failed to achieve a "B" average on all graduate work attempted. Only courses in which a student earned a “B” grade or better may be transferred.

The greater of 9 semester hours or 25 percent of appropriate post-master's-degree credit, earned through a regionally accredited institution approved to offer graduate programs beyond the master's level in the field of study where the credits were earned, may be transferred to apply toward an EdS degree. To be considered for transfer, credit must have been completed during the six years (18 fall, spring, and summer semesters) immediately preceding the date on which the degree is to be awarded.

Previous and appropriate post-master's-degree credit earned at The University of Alabama before a student applies for admission to the EdS program can be applied toward the EdS degree, provided it meets the program requirements of the particular department and the time limitation stated below.
Evaluation of credit for transfer will not be made until after the student has enrolled in the Graduate School of The University of Alabama. Acceptance of credit requires the approval of the student’s advisory committee and the dean of the Graduate School. Credit will not be accepted for transfer from any institution at which the student failed to achieve a "B" average on all graduate work attempted. Only courses in which a student earned a "B" grade or better may be transferred. A student initiates a Request for Transfer of Graduate Credit earned at another institution.

A student in his or her last semester of work toward the master’s degree who does not need a full course load to complete the course requirements of his or her master's program may register for work toward the EdS degree, in the amount needed to complete full registration loads.

In some cases, foreign educational credentials may not meet the Graduate School's criteria for transfer of credit. It may be necessary for students in this situation to secure a credentials evaluation from World Education Services Inc. (WES), an external foreign credential evaluation service.

Time Limit

All requirements for the EdS degree must be completed during the six years (18 fall, spring, and summer semesters) immediately preceding the date on which the degree is to be awarded. There is no provision at the EdS level for a time limit extension beyond 6 years.

Plan of Study

A standard form for an EdS plan of study is not available at the Graduate School's website, because each department or program participating in the EdS degree has established a framework of requirements for the degree that indicates the general structure of its program. At or before initial registration, each student develops a formal plan of study for the degree, designating all courses he or she plans to take in the program. In reaching decisions, the student should consult with the program director. The student will file a completed plan with the program director who, upon approving the plan, will distribute copies to the Graduate School and to the student, retaining one copy for departmental files.

A plan of study may be amended at any time using appropriate forms and following the procedure described above. Until formal approval of an amended plan of study is made, the original or current modification of the plan will be in effect.
Admission to Candidacy

As noted above, the EdS Plan of Study is available in the College of Education and must be approved by the Graduate School before the student can be admitted to candidacy for the EdS degree. Thus, it is best to complete the plan of study by the end of the first or second semester of course work.

Each EdS student completes the Admission to Candidacy for the EdS Degree application form and submits it to the Graduate School.

Examinations

In addition to the regular course examinations, a final comprehensive examination is required. The examination may be written or oral or both, at the discretion of the major department. No candidate is eligible for the final examination until approved by the appropriate program director. A student may take the final oral or written examination only twice. Failing the examination twice results in dismissal from the degree program and the Graduate School.

The examination will be prepared and conducted by a committee of at least three members of the UA graduate faculty, including the program director in the major area of study and a designee (or two or more people from the major area of study, designated by the program director) and the program director (or a designee) from the minor field of study, if one has been included in a program. Committees will be appointed by the dean of the Graduate School on request of the major program director. Each candidate must be judged by the major department to have completed the examination(s) satisfactorily.

If a candidate receives failing marks in both the minor area of study and the professional education field, the candidate will be judged to have failed the examination. If a candidate fails either the minor examination or the professional education examination, the committee as a whole will reach a decision about the satisfactory or unsatisfactory nature of the candidate's performance on the examination. If a candidate does not have a minor field, the committee members will meet to reach a decision in the event the student fails the professional education examination.

All written examinations will be kept on file by the program directors for one year following the date of the examination, and students will have the right to confer with their program directors regarding the strengths and weaknesses shown on the examinations.
Application for Graduation

Each candidate for an educational specialist degree submits the Application for Degree through the Graduate School no later than the registration period of the semester or the first term of the summer session in which requirements for the degree are to be completed.
