University of Mississippi

Overview
The Department of Civil Engineering offers studies in the following undergraduate and graduate level degrees:
- Master of Science in Engineering Science with emphasis in Civil Engineering
- Master of Science in Engineering Science with emphasis in Environmental Engineering
- Doctor of Philosophy in Engineering Science with emphasis in Civil Engineering
- Doctor of Philosophy in Engineering Science with emphasis in Environmental Engineering

Master of Science in Engineering Science Degree Requirements

Detailed information on the general requirements for an advanced degree at the University of Mississippi may be found in the Graduate School Catalog.

The general requirements for the degree of Master of Science in Engineering Science are stated in the section on Requirements for Graduate Degrees. There is no foreign language requirement for these degrees. The student may complete the M.S. degree requirements under either (1) thesis option, which requires a minimum of 30 hours of graduate credit, including 6 hours of thesis; or (2) non-thesis option, which requires a minimum of 30 hours of graduate credit of which a minimum of 3 hours should be earned from a design-oriented program or research project course. The following are degree completion requirements for some of the established fields of study.

Course requirements for a M.S. degree in Engineering Science emphasizing Civil Engineering

For the emphasis in civil engineering and the emphasis in environmental engineering, the thesis option requires at least 24 hours of course work and at least 6 hours of thesis credit. The non-thesis option requires 27 hours of course work and a 3-hour project or research course with a written report, final presentation, and oral examination. Course work for either option must be approved by the student's advisory committee.
